

# Youth Fellowship Opportunity!

Do you want to deepen your understanding of climate change and climate justice and lift up youth voices to shape climate education?

EarthGen is excited to invite high school students from across Washington to apply for our new Youth Fellowship opportunity!

Youth Fellows will deepen their own knowledge about climate science and climate justice, design and implement a research project to gather ideas from young people statewide about how to strengthen climate education, and share these findings with broad audiences through a final product and presentation.

If you are interested in this opportunity, please complete and submit the application form by Friday, December 30.
